

# How to receive thousands of leads per month and save money and time

@EstateTargetBot

**Bejmax**

**Real-estate agencies and realtors  
spent money on advertisement,  
which is not cost-effective 😞**

@EstateTargetBot

# How is it working? 🤔

He is parsing thousands of Telegram chats, where people make a search for realtors and publish there request for:

**Real estate sale**

**Real estate buying**

**Search for real estate specialist**

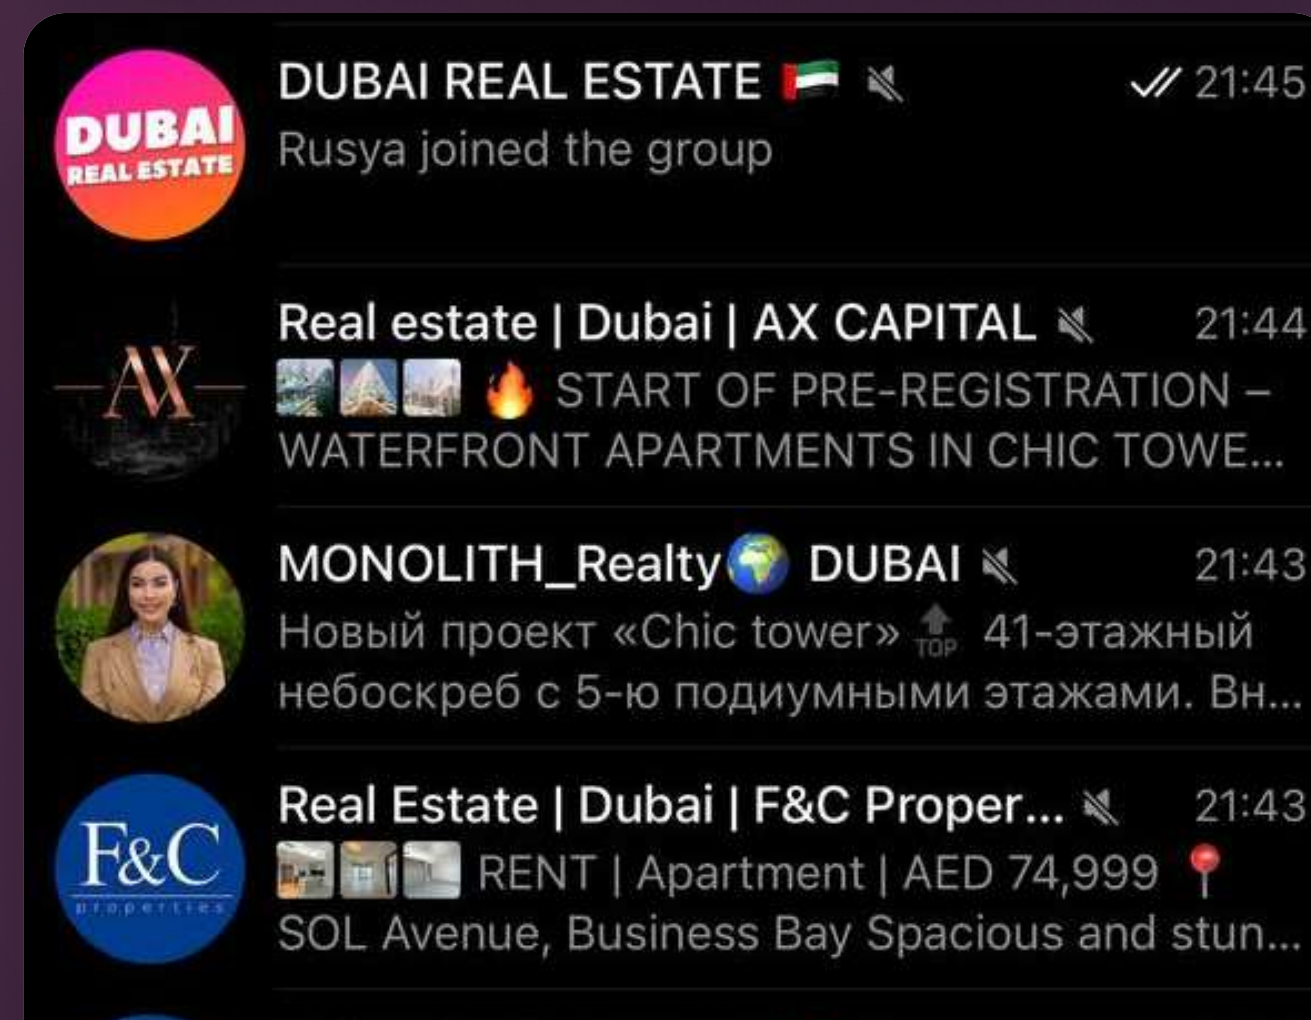

**Bejmax**

Our bot would immediately send message to you from that person, whom just wrote his request

**This process  
look like this:**

### Step №1

Telegram bot is scanning  
1000+ chats in one moment

### Step №2

Bot is filtering messages and send  
to you only those, who fit your  
needs

# Development plan 🚀

## 1. Improved filters

Improved filters that can be customized for all clients. From luxury real estate to finding people who need help getting their mortgages approved

## 2. Neural network

Neural network. We plan to make our bot as smart as possible. Therefore, we will train our own neural network. This will allow you to filter people more accurately and send those customers who suit you according to all criteria

## 3. Free training courses for users

Free courses for our users on closing leads in correspondence from experienced salesmens

## 4. Bot as an aggregator

In the next update, you will be able to use the bot as an aggregator: add publications and sell your own objects
